### TITLE OF YOUR ARTICLE

You now summarize your article. This summary needs to be on a page separate from the article you print or copy and needs to be **ON THE TOP**. Your summary should tell me about the important points of the article.

Regarding your document format, everything should be single spaced using the Arial 12 font. If you use MS Word, be sure to change from 1.15 line spacing to single space as well as changing the "Spacing After" from 10 pt to 0 pt. In addition, change your margins to 1-inch. The border line on this page shows you what 1-inch looks like.

As shown here, everything is single-spaced with a 1-inch margin. Also notice that paragraphs are used here. You should be writing your paper in this format, splitting your main ideas using paragraphs.

After you have summarized your article, start a new paragraph to tell me your ideas and opinions about the topic you have summarized. Explain your opinions, why do you think what you think or believe.

When you are finished, your paper should be at least one page in length. Papers that are not one page in length will not get the full 25 points. In addition, papers not following the format instructions will not get the full 25 points.

The bottom line (not what you see when watching ESPN), follow the formatting and writing instructions. Include your summary and opinion(s). This will give you the greatest opportunity to receive the 25 points for each paper. Note, because I have not reached the required length for this paper, I would not be receiving full points!!
